

AUTOMATION & FABRICATION SERVICES

AUTOMATION SERVICES

- Automated control systems design
- SCADA / IoT / Operational intelligence
- Process control, SCADA, historian, and ERP system integration
- Process optimization
- Control system maintenance and modernization

PANEL FABRICATION

- Control panel fabrication
- Deliver low-volume custom/high-volume repeatable solutions
- CSA/Certifications
- System acceptance testing
- PLC, DCS, SCADA, HMI, VDF, communications, distribution panels, junction boxes, operator control stations, Photovoltaic (PV) panels & compressor control panels
- Commissioning support
